

## DVD ORDER FORM: "GETTING TO KNOW YOU"

Northern Beaches Child and Family Health Services and The New South Wales Institute of Psychiatry present "Getting to Know You - Recognising Infant Communication and Social Interaction". Current research has shown how critical early social interaction is for a child's developing brain. In the hurly-burly of parenthood, it can be difficult to recognise your baby's earliest communications. By focusing on the first three months of life, this video aims to help babies and parents get to know each other.
